

EG2001 VORTEX OPTION

- ❖ Vortex = provides active chuck cooling using compressed air
- ❖ A cost effective controlled ambient probing solution
- ❖ Increases the system throughput by reducing ramp times
- ❖ Upgradeable to existing EG Hot Chucks
- ❖ No moving parts
- ❖ Maintenance free

- Temperature Range: 20 to 130°C
- Uniformity:
- Chuck temp. => 20° => +/-0.5°
- Chuck temp. => 100°~130° => +/-1.5°

The above config is based on upgrading HOT Chuck at the same time
